

ELECTRIQUE

2 KVA

VOLTAGE STABILIZER

Key Features

- ◆ Increases useful life of equipment's.
- ◆ Reduces malfunctions rate of equipment's.
- ◆ Maintains the stabilized power supply.
- ◆ Faster output voltage correction.
- ◆ Microprocessor based solid-state, Relay less, Front-loading plug in control cards for easy online serviceability.
- ◆ Regulated & Safe Voltage output.
- ◆ Smart Thermal Management System.
- ◆ High Efficiency Transformer.
- ◆ By-Pass MCB for Maintenance.

Technical Specification:

Brand	: ElectriQue
Origin	: India
Capacity	: 2 KVA
Phase	: Single
Type	: Servo
Cool Function	: Air Cooled
1 Phase (In-OUT) I/P Voltage Range	: 110V - 270V
1 Phase Output Voltage Range	: 230V \pm 1%
Output Voltage Range	: 400V \pm 1%
Output Frequency	: 50Hz \pm 1%
Efficiency	: > 99%
Response Time	: < 10 ms
Duty Cycle	: 100% Continuous
Effect of Load Power Factor	: Suitable for all power factor loads
Correction Speed	: 60V per sec. Faster
Technology	: Torridly Wound Variable Auto Transformer for Linear Control
Drive Type	: Direct AC drive for fastest voltage correction and durability
Transformer Oil	: New Insulating Transformer Oil ISI 335
Protections	: Automatic Low Voltage Cut Off, High Voltage Cut Off, Over temperature protection
